

In-class Exercises: XPath and XQuery

Make sure that you have each of the following files, either on a hard-copy handout, or on your laptop/device: quiz.xml, races.xml, and the trio of more elaborate quiz-related files: bank.xml, quiz.xml and class.xml.

1. In quiz.xml find the solution to every question.

2. In races.xml, find all the runner's names.

3. Find all the names of races.

4. Find all race results for runner r1.

5. Find out who had a race result over 3.5.

6. Find out who had a race result over 3.5 in the Run for the Cure.

7. In file bank.xml, find all the hints for all the multiple-choice questions.

8. In file class.xml, find the sid of all students who answered question MC-08.
